

LMC-3000 Series

FOR RESEARCH & CLINICAL

-  Corrected for eyeglasses
-  Carrying Handle
-  LED Illumination
-  360° rotating binoc

KEY FEATURES

- Single high-powered LED
- Carrying handle
- Stable main body
- Brightfield, Darkfield, Simple Polarization, Phase Contrast, & Fluorescence Illumination
- High contrast, broad beam optical design

STAND

Large, sturdy based designed for the everyday lab environment.

- Rack and pinion focusing mechanism for smooth focusing control
- Stable main body design
- X/Y mechanical stage
- Built in carrying handle for easy transportation of microscope
- Coarse and fine focus adjustment
- Reversed quintuple or quadruple nose-piece
- Full Koehler illumination with field and iris diaphragm

BINOCULARS & TRINOCULAR OPTICS

- 360° rotating binoculars
- 50 to 75mm interpupillary distance
- Rubber eyecups
- Diopter adjustments

EYEPIECES

- 10x magnification, with 20mm wide field eyepieces
- Optional ability to lock eyepieces

ILLUMINATION

- 3 watt bright white LED
- Removable LED tray
- Adjustable
- Maintains constant color temperature
- 50,000 hour life span

LED FLUORESCENCE

- 25,000 hour life span
- No alignment needed
- LED wave length specific to filter set
- Adjustable light intensity
- High signal to noise ratio
- Stable light excitation energy
- No warm-up or cool down time
- Produces no harmful UV light
- Powered by optional battery pack

-  Single Channel Fluorescences
-  Hard Coated Filters
-  Brightness Control
-  Wave-Length Specific LED
-  External Power Supply
